With the Eminent EM7033 2.5" SATA Hard Disk Enclosure you can create a backup or take your files with you. Just build in your 2.5" SATA hard disk into the small but solid designed enclosure and take your backup or take your photos, music, movies and other files with you wherever you go!

Small solid enclosure
Because of the solid aluminium housing you can keep your hard disk save and cool in the EM7033.
The small size enables you to take your enclosure with you wherever you are. You can build in your own desired SATA hard disk of almost every brand and every size.

For Home, Office and Travel usage
You can use the EM7033 2.5" SATA Hard Disk Enclosure to backup your files or to take your company or personal files with you on the road. The enclosure only requires two USB ports to power itself, so it's easy to use when travelling with your notebook or netbook!

Super Speed USB 3.0 support
Stop wasting time, use USB 3.0 to move or copy your files faster than before. The EM7011 Docking Station has Super Speed USB 3.0 connectivity which enables you to transfer data at a maximum rate up to 5 gigabits per second. The Docking is also provided with a USB 3.0 cable.

Backwards compatible with USB 2.0
No USB 3.0 port on your computer? No problem, you can connect the Eminent EM7033 Enclosure also to your USB 2.0 ports, with a transfer speed up to 480 mbits per second.

Including One Touch Backup software
Your files can be save by pressing just one button. Install and use the simple One Touch Backup software to create backups of your files in an instance. Just select your folder once and press the backup button on your enclosure to start the backup.

Several accessories
It is not only an enclosure, you can use the protective carrying bag and you can use the screws and a screwdriver to build in your own hard disk. Use the special USB cable with double USB plug to provide the required power for the hard disk in your enclosure.
